

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-22-2018">https://dx.doi.org/10.21037/atm-22-2018</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival time of each transplanted rat particular will be shared. Specific operation process of new technology can also be shared, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, analytic code and approval of animal ethics will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or improvement will be updated over time.
7	To whom will you share the data?	Thoracic surgeons and respiratory specialists who are interested in studies of lung transplantation.
8	For what type of analysis or purpose?	For analysis to explore further improvement of lung transplantation in rats.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: gaopeigen@yeah.net.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
