

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-3073	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The differentially expressed proteins of BMSC after co-cultured with SCs in this study, some of which has already been provided in the Table S1 S2 and S3.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Protocol and statistical analysis plan have already been shared in the manuscript.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Researchers majoring in spinal cord injury and stem cell.
8	For what type of analysis or purpose?	For the study of SCI repair and stem cell transplantation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: dh2520365@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
