

Data Sharing Statement

Article Info	Article information: https://dx.doi.org/10.21037/atm-22-628	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The protocols of some biochemistry experiments without detailed descriptions in previous reports.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and informed consent form, will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the experimental protocols may be updated over time.
7	To whom will you share the data?	Researchers who are interested in the experimental methods of this study.
8	For what type of analysis or purpose?	For analysis to investigate the pathophysiology of pelvic organ prolapse.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 123910566@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
