

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/mhealth-22-37	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The quantitative and qualitative analyses of the answers to the surveys on perinatal women's and health care professionals' views towards the existing perinatal apps and what an ideal app would be.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	More detail on the survey and survey results can be found in the Supplementary. The survey protocol, informed consent form, and raw database of participants' responses to the survey (without personal data) will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Researchers, professionals, or policymakers interested in perinatal mHealth.
8	For what type of analysis or purpose?	For any purpose related to mHealth research.
9	How or where can the data/documents be obtained?	By contacting the corresponding author [PF: pvfranco@uc.cl].
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
