

Consolidated criteria for reporting qualitative studies (COREQ): 32-item checklist

No	Item	Guide questions/description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Domain 1: Research team and reflexivity				
Personal Characteristics				
1	Interviewer/facilitator	Which author/s conducted the interview or focus group? Interviews only ASB, PG, KTB		
2	Credentials	What were the researcher's credentials? e.g. <i>PhD, MD</i> ASB (MD), PG (PhD), KTB (BSc)		
3	Occupation	What was their occupation at the time of the study? Family Physician; Research Staff		
4	Gender	Was the researcher male or female? Main facilitators are Female		
5	Experience and training	What experience or training did the researcher have?		
Relationship with participants				
6	Relationship established	Was a relationship established prior to study commencement?		
7	Participant knowledge of the interviewer	What did the participants know about the researcher? e.g. <i>personal goals, reasons for doing the research</i>		
8	Interviewer characteristics	What characteristics were reported about the interviewer/facilitator? e.g. <i>Bias, assumptions, reasons and interests in the research topic</i> ASB is a physician who treats and studies childhood obesity		
Domain 2: study design				
Theoretical framework				
9	Methodological orientation and Theory	What methodological orientation was stated to underpin the study? e.g. <i>grounded theory, discourse analysis, ethnography, phenomenology, content analysis</i> discourse analysis, ethnography, phenomenology, content analysis		
Participant selection				
10	Sampling	How were participants selected? e.g. <i>purposive, convenience, consecutive, snowball</i>		
11	Method of approach	How were participants approached? e.g. <i>face-to-face, telephone, mail, email</i>		
12	Sample size	How many participants were in the study?		
13	Non-participation	How many people refused to participate or dropped out? Reasons? n=0 dropped out		

Setting				
14	Setting of data collection	Where was the data collected? e.g. <i>home, clinic, workplace</i>	via Zoom and Qualtrics	
15	Presence of non-participants	Was anyone else present besides the participants and researchers?		
16	Description of sample	What are the important characteristics of the sample? e.g. <i>demographic data, date</i>		
Data collection				
17	Interview guide	Were questions, prompts, guides provided by the authors? Was it pilot tested?	No pilot	
18	Repeat interviews	Were repeat interviews carried out? If yes, how many?	No repeats	
19	Audio/visual recording	Did the research use audio or visual recording to collect the data?	Audio and visual recordings	
20	Field notes	Were field notes made during and/or after the interview or focus group?	No notes	
21	Duration	What was the duration of the interviews or focus group?	One hour	
22	Data saturation	Was data saturation discussed?	Yes	
23	Transcripts returned	Were transcripts returned to participants for comment and/or correction?	No	
Domain 3: analysis and findingsz				
Data analysis				
24	Number of data coders	How many data coders coded the data?	Two (PG, KTB)	
25	Description of the coding tree	Did authors provide a description of the coding tree?	No, inductive themes presented only	
26	Derivation of themes	Were themes identified in advance or derived from the data?	Inductively	
27	Software	What software, if applicable, was used to manage the data?	Dedoose	
28	Participant checking	Did participants provide feedback on the findings?	No	
Reporting				
29	Quotations presented	Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. <i>participant number</i>	ID numbers presented	
30	Data and findings consistent	Was there consistency between the data presented and the findings?		
31	Clarity of major themes	Were major themes clearly presented in the findings?		
32	Clarity of minor themes	Is there a description of diverse cases or discussion of minor themes?
