In summary, I am a consultant at Pager, Intercept telehealth, and Upscript. They are telemedicine companies. I get options from all three and also cash compensation from Intercept telehealth. I am an expert in Urology for an occasional law firm. I have a patent on a catheter, but I have never gotten compensation for it. I was appointed by President Biden to the National Cancer Advisory Board and am compensated for the several days per year that I am in Washington to attend meetings at the National Cancer Institute.
