

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/cdt-22-464	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All relevant raw data including statistical results are freely available for scientific purpose.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plans, ethical consent forms and proposal reports will also be shared if required.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Colleagues interested in the study of rats with cardiac hypertrophy
8	For what type of analysis or purpose?	Objective To evaluate the effect of layered strain on myocardial hypertrophy in rats
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 243898783@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared
