

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/cdt-22-543	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Clinical and imaging data in patients with symptomatic stroke after carotid artery stenting. Because we found differences in the calcification circumference between symptomatic and asymptomatic stroke patients after the carotid artery stenting.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date
7	To whom will you share the data?	Researchers who are interested in studies of the symptomatic stroke after carotid artery stenting
8	For what type of analysis or purpose?	To investigate independent risk factors for symptomatic stroke after carotid artery stenting
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: sym1997928@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
