

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/cdt-22-611	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We will share the survival data, in particular. We also found a correlation between a D2D time greater than 90 minutes and in-hospital mortality in STEMI patients treated with primary PCI.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We will share the statistical analysis plan, the informed consent form, and the clinical study report upon request.
5	When will data availability begin?	Data will be available from the publication date.
6	When will data availability end?	Data availability will end two years after the publication date since the technique or survival date may be updated over time.
7	To whom will you share the data?	We will share the data with interested internists and cardiovascular surgeons.
8	For what type of analysis or purpose?	Data sharing would be for evaluating the correlation between D2D time and in-hospital mortality in STEMI patients treated with primary PCI.
9	How or where can the data/documents be obtained?	Via email sent to: dr_nakaran@hotmail.com
10	Any other restrictions?	We may weigh the potential benefits and risks of each request then provide the data as appropriate.
