

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/cdt-23-323	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The history of pre-existing diseases, the apnea-hypopnea index, left ventricular ejection fraction, laboratory test results.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Cardiologists can contact the first author for data if needed.
8	For what type of analysis or purpose?	To investigate the predictive value of CA125 levels in patients with heart failure (HF) complicated with obstructive sleep apnea syndrome (OSAS) and further achieve early intervention and precise treatment for heart failure.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: gttcardiology@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
