

## Data Sharing Statement

|                     |  |   |
|---------------------|--|---|
| <b>Article Info</b> | <a href="https://dx.doi.org/10.21037/cdt-21-434">https://dx.doi.org/10.21037/cdt-21-434</a>  |   |
| <b>Item</b>         | <b>Question</b>  | <b>Authors' Response<br/>(place "-" if not applicable)</b>  |
| 1                   | Would you like to share data collected for your study to others?   | Yes, but approval by the KAMIR-NIH database committee will be required.   |
| 2                   | If not, would you like to share the reason for your decision?  | -   |
| 3                   | What data in particular will be shared?  | It will depend on the decision of the KAMIR-NIH committee after considering our request.  |
| 4                   | Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | The statistical analysis plan, informed consent form, and clinical study report will also be shared, if requested.                  |
| 5                   | When will data availability begin?   | From the publication date.  |
| 6                   | When will data availability end?   | Within 2 years from the publication date, as the technique or survival data may change over time.                                   |
| 7                   | To whom will you share the data?   | Cardiologists who are interested in AMI studies.  |
| 8                   | For what type of analysis or purpose?  | For the analysis of long-term follow-up of patients with AMI.   |
| 9                   | How or where can the data/documents be obtained?   | Data will be provided as a raw data file produced by the KAMIR-NIH committee.   |
| 10                  | Any other restrictions?  | We may balance the potential benefits and risks for each request and provide only data that will be deemed appropriate for sharing. |
