

Data Sharing Statement

Article Info	Article information: http://dx.doi.org/10.21037/tau-22-578	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Individual participant data that underlie the results reported in this article, after deidentification (text, tables, figures, and appendices).
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Andrology doctors or urologists interested in semen quality research.
8	For what type of analysis or purpose?	Discussion of the potential influence of different geographical regions in the northern and southern of China on the quality of male semen.
9	How or where can the data/documents be obtained?	Proposals should be directed to jianghui@bjmu.edu.cn . To gain access, data requestors will need to sign a data access agreement. Data are available for 5 years at a third-party website (Link to be included).
10	Any other restrictions?	-
