

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tau-22-852	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The detailed procedures of surgery in particular will be shared. We adopted a new surgical method to treat the pediatric concealed penis, namely, removing most of the inner foreskin plate and covering the missing skin on the ventral side of the penis with a scrotal skin transfer instead of the outer foreskin plate.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form, clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Urologist surgeons and reproductive medicine experts who are interested in the studies of concealed penis.
8	For what type of analysis or purpose?	For the evaluation of the efficacy and safety of scrotal skin transfer method in the treatment of pediatric concealed penis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Cysetty@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
