

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tau-23-205">https://dx.doi.org/10.21037/tau-23-205</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	–
3	What data in particular will be shared?	Surgical procedure videos can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis and informed consent form will also be shared upon request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique will be updated over time.
7	To whom will you share the data?	Urologists who are interested in the approach of ureteroileal anastomosis.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy and safety of V-O anastomosis during intracorporeal urinary diversion after radical cystectomy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: cgf301@foxmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
