

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tau-23-155">https://dx.doi.org/10.21037/tau-23-155</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Pre and post-operative neophallus length data along with data surrounding those who have or have not undergone monsplasty or urethral lengthening so it can be better understood how these may impact neophallus length in larger cohorts of patients.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	-
7	To whom will you share the data?	Urologists, plastic surgeons, and other providers who participate in genital gender affirming surgery.
8	For what type of analysis or purpose?	For analysis to evaluate neophallus length following metoidioplasty.
9	How or where can the data/documents be obtained?	Emails can be sent to <a href="mailto:glickhh@umich.edu">glickhh@umich.edu</a> to obtain the shared data.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
