

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tau-20-1173	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Clinicians and scientific researchers who are interested in studies of sepsis.
8	For what type of analysis or purpose?	For analysis of the correlation between Lp-PLA2 and sepsis and its application value in the diagnosis of sepsis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jhy@ntu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
