

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/tau-20-1229">http://dx.doi.org/10.21037/tau-20-1229</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The UC outcome in particular will be shared. Compared with the traditional approach, RS-RARP offers benefits regarding UC for cases with significant PML.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or potency outcomes may be updated over time.
7	To whom will you share the data?	Urology surgeons who are interested in studies of RS-RARP.
8	For what type of analysis or purpose?	For analysis to evaluate the potency of RS-RARP in prostate cancer patients with PML.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Xuefeng_qiu@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
