

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tau-21-79	
Item	Question	Authors' Response (place “-” if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The ICP results, immunohistochemistry results and ELISA results of current study will be shared if requests are made.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, and informed consent form will be shared if requested
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or ED treatment may be updated over time.
7	To whom will you share the data?	Medical urologists and scientists who are interested in treating erectile dysfunction through ESWT or MSCs.
8	For what type of analysis or purpose?	For analysis to evaluate the effects of ESWT and MSC treatment in DM induced ED
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ksw1227@catholic.ac.kr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
