

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tau-21-590">https://dx.doi.org/10.21037/tau-21-590</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The preoperative data of enhanced CT scanning of patients with ureteropelvic junction obstruction (UPJO).
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Surgeons who are interested in studies of three-dimensional image reconstruction technology.
8	For what type of analysis or purpose?	To present our initial experience of three-dimensional image reconstruction technology and evaluate its safety and effectiveness by comparing perioperative data and outcomes between different groups.
9	How or where can the data/documents be obtained?	E-mails could be sent to the address below to obtain the shared data. 348813114@qq.com.
10	Any other restrictions?	No
