

Data Sharing Statement

| | | |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Info | https://dx.doi.org/10.21037/tau-22-108 | |
| Item | Question | Authors' Response (place "-" if not applicable) |
| 1 | Would you like to share data collected for your study to others? | Yes |
| 2 | If not, would you like to share the reason for your decision? | - |
| 3 | What data in particular will be shared? | First results published in the literature of an initial experience in vaginoplasty surgery aimed at patient satisfaction. Almost every patient was very satisfied with the choice of having undergone surgery. An average higher than 4 points out of 5 was obtained in every domain of the survey. |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | - |
| 5 | When will data availability begin? | From the publication date. |
| 6 | When will data availability end? | The data within the manuscript may be useful until better surgical techniques arise. Then, new analysis of satisfaction will need to be performed. |
| 7 | To whom will you share the data? | Any specialist medical or not (urologist, plastic surgeons, nurses...) who is interested in beginning a program of transgender surgery |
| 8 | For what type of analysis or purpose? | Analysis regarding patient satisfaction after vaginoplasty surgery |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the address below to obtain the shared data: pdepablos@bellvitgehospital.cat |
| 10 | Any other restrictions? | None |
