

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tau-22-188">https://dx.doi.org/10.21037/tau-22-188</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes, data may be available upon request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Curvature and safety outcomes data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within publication date, since the data may no longer be reflective as our clinic continues to treat patients.
7	To whom will you share the data?	Urologists interested in research on Peyronie's disease.
8	For what type of analysis or purpose?	For analysis on the safety and efficacy of intralesional collagenase in patients with Peyronie's disease.
9	How or where can the data/documents be obtained?	Please contact the corresponding author at JNMills@mednet.ucla.edu.
10	Any other restrictions?	We may balance the potential benefits and risks of each request and then provide the data that could be shared.
