Manuscript Title: Virtual Reality based surgical planning simulato for tumorous resection in FreeForm Modeling: Illustrative case of clinical teaching	
Manuscript number (if known): QIMS_23_1151	

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are

related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third

parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment

to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the current manuscript only.

The author's relationships/activities/interests should be <u>defined broadly</u>. For example, if your manuscript pertains

to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

In item #1 below, report all support for the work reported in this manuscript without time limit. For all other items,

		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Co mments (e.g., if payments were made to you or to your institution)
	Ti	me frame: Since the initial planning of the work	
1	All support for the present manuscript (e.g.,	1. Doctoral Engine Project of Affiliated	
	funding, provision of study materials, medical	JiangMen Hospital of TCM @ Ji'Nan	
	writing, article processing	University (2021)	

2	charges, etc.) No time limit for this item.  Grants or contracts from	Medical project in Healthy field of JiangMen plan in Scientific Technology (2022YL03005)     Guangdong-HongKong Technology Cooperation Funding Scheme (TCFS 2023)  CT / ProE-5.0 / Mimics / FreeForm® Modeling Plus  Time frame: past 36 months  None	
	any entity (if not indicated in item #1 above).		
3	Royalties or licenses	None	
4	Consulting fees	None	
5	Payment or honoraria for lectures, presentations, speakers bureaus, manuscript writing or educational events	None	
6	Payment for expert testimony	None	
7	Support for attending meetings and/or travel	None	
8	Patents planned, issued or pending	None	
9	Participation on a Data Safety Monitoring Board or Advisory Board	None	
10	Leadership or fiduciary role in other board, society, committee or advocacy group, paid or unpaid	None	
11	Stock or stock options	None	
12	Receipt of equipment, materials, drugs, medical writing, gifts or other services	None	
13	Other financial or non-	None	

financial interests	

This work was supported by the funding of: Doctoral Engine Project of Affiliated JiangMen Hospital of TCM @ Ji'Nan University (2021), Medical Project in Healthy Field of JiangMen Plan in Scientific Technology (No. 2022YL03005) and Guangdong-HongKong Technology Cooperation Funding Scheme (No. TCFS 2023), as well as study materials of: CT / ProE-5.0 / Mimics / FreeForm® Modeling Plus.
