<u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

Materials

Antibodies	Yes (indicate where provided: section/paragraph)	n/a
For commercial reagents, provide supplier name, catalogue number and RRID, if		Not applicable
and the last of th		

Cell materials	Yes (indicate where provided: section/paragraph)	n/a
Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID		Not applicable
Primary cultures: Provide species, strain, sex of origin, genetic modification status.		Not applicable

Experimental animals	Yes (indicate where provided: section/paragraph)	n/a
Laboratory animals: Provide species, strain, sex, age, genetic modification status. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID		Not applicable
Animal observed in or captured from the field: Provide species, sex and age where possible		Not applicable
Model organisms: Provide Accession number in repository (where relevant) OR		Not applicable

Plants and microbes	Yes (indicate where provided: section/paragraph)	n/a
Plants: provide species and strain, unique accession number if available, and source (including location for collected wild specimens)		Not applicable
Microbes: provide species and strain, unique accession number if available, and		Not applicable

Human research participants	Yes (indicate where provided: section/paragraph)	n/a
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China Hospital of Sichuan University (No. 2020(258)).	
Provide statement confirming informed consent obtained from study participants.	In Ethical Statement Section: Written informed consent was obtained from each patient for publication of this study and any accompanying images.	
Report on age and sex for all study participants.	Reported in Table 2	

<u>Design</u>

Study protocol	Yes (indicate where provided: section/paragraph)	n/a
For clinical trials, provide the trial		Not applicable
registration number OR cite DOI in		
Laboratory protocol	Yes (indicate where provided: section/paragraph)	n/a
Provide DOI or other citation details if		Not applicable
detailed step-by-step protocols are		
Experimental study design (statistics	Yes (indicate where provided: section/paragraph)	n/a
State whether and how the following		
have been done, or if they were not		
Sample size determination	Reported in Methods Statistical analysis section/	
	Paragraph 1: For multiple regressionWe would	
	ensure that the number of subjects is not less than	
	the corresponding sample size when building models.	
Randomisation		Not applicable
Blinding		Not applicable
Inclusion/exclusion criteria	Reported in Methods Study subjects section/	
	Paragraph 2: The suspected sarcopenia volunteers	
	were primarily included if following criteria 1 and any	
	one of 2-4 were met: (1) Age over 60 years old	
Sample definition and in-laboratory	Yes (indicate where provided: section/paragraph)	n/a
State number of times the experiment	res (mulcate where provided, section, paragraph)	Not applicable
was replicated in laboratory		110t applicable
Define whether data describe technical		Not applicable
or biological replicates		
Ethics	Yes (indicate where provided: section/paragraph)	n/a
Ethics Studies involving human participants:	Yes (indicate where provided: section/paragraph) In Ethical Statement Section: The study was	n/a
Studies involving human participants: State details of authority granting ethics		n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent	In Ethical Statement Section: The study was	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals:	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China	Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required,	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China Hospital of Sichuan University (No. 2020(258)).	Not applicable Not applicable
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, Dual Use Research of Concern (DURC)	In Ethical Statement Section: The study was approved by the Ethics Committee of the West China Hospital of Sichuan University (No. 2020(258)).	Not applicable Not applicable

Analysis

Attrition	Yes (indicate where provided:	n/a
State if sample or data point from the analysis is	In results section paragraph 1: No data	
excluded, and whether the criteria for exclusion were	point from the analysis was excluded	
determined and specified in advance.		

Statistics	Yes (indicate where provided:	n/a
Describe statistical tests used and justify choice of	In Statistical analysis section: Statistical	
tests.	analyses were performed using SPSS 24.0	
	software (IBM, Armonk, NY, USA). The	
	Shapiro-Wilk test was used to verify the	
	normality of continuous variables	
	,	

Data Availability	Yes (indicate where provided:	n/a
State whether newly created datasets are available, including protocols for access or restriction on access.	In Data sharing statement: The data used to support the findings of this study are	
access.	available from the corresponding author upon request.	
If data are publicly available, provide accession number in repository or DOI or URL.		Not applicable
If publicly available data are reused, provide accession number in repository or DOI or URL, where possible.		Not applicable

Code Availability	Yes (indicate where provided:	n/a
For all newly generated code and software essential		Not applicable
for replicating the main findings of the study:		
State whether the code or software is available.		Not applicable
If code is publicly available, provide accession		Not applicable
number in repository, or DOI or URL.		

Reporting

Adherence to community standards	Yes (indicate where provided: section/paragraph)	n/a
MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.	ICMJE guidelines were followed, as the journal follows ICMJE recommendations for publication.
