

STROBE Statement—checklist of items that should be included in reports of observational studies

Section/item	Item No	Recommendation	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract	1	(a) Indicate the study's design with a commonly used term in the title or the abstract	Page 2 / Line 28	Abstract / Paragraph 2
		(b) Provide in the abstract an informative and balanced summary of what was done and what was found	Page 2 / Line 28-34	Abstract / Paragraph 2
Introduction				
Background/ rationale	2	Explain the scientific background and rationale for the investigation being reported	Page 4 / Line 49-95	Introduction / Paragraph 1-3
Objectives	3	State specific objectives, including any prespecified hypotheses	Page 4 / Line 96-101	Introduction / Paragraph 4
Methods				
Study design	4	Present key elements of study design early in the paper	Page 6 / Line 104-112	Material and Methods / Paragraph 1
Setting	5	Describe the setting, locations, and relevant dates, including periods of recruitment, exposure, follow-up, and data collection	Page 6 / Line 113-176	Material and Methods / Paragraph 2-8
Participants	6	(a) <i>Cohort study</i> —Give the eligibility criteria, and the sources and methods of selection of participants. Describe methods of follow-up <i>Case-control study</i> —Give the eligibility criteria, and the sources and methods of case ascertainment and control selection. Give the rationale for the choice of cases and controls <i>Cross-sectional study</i> —Give the eligibility criteria, and the sources and methods of selection of participants	Page 6 / Line 114-116	Material and Methods / Paragraph 2
		(b) <i>Cohort study</i> —For matched studies, give matching criteria and number of exposed and unexposed <i>Case-control study</i> —For matched studies, give matching criteria and the number of controls per case	N/A	N/A

Variables	7	Clearly define all outcomes, exposures, predictors, potential confounders, and effect modifiers. Give diagnostic criteria, if applicable	Page 7-11 / Line 127-221	Material and Methods / Paragraph 3-13
Data sources/ measurement	8*	For each variable of interest, give sources of data and details of methods of assessment (measurement). Describe comparability of assessment methods if there is more than one group	Page 7-11 / Line 127-221	Material and Methods / Paragraph 3-13
Bias	9	Describe any efforts to address potential sources of bias	Page 6 / Line 96-101	Introduction / Paragraph 4
Study size	10	Explain how the study size was arrived at	Page 6-7 / Line 113/123	Material and Methods / Paragraph 2
Quantitative variables	11	Explain how quantitative variables were handled in the analyses. If applicable, describe which groupings were chosen and why	Page 11-12 / Line 222-235	Material and Methods / Paragraph 14, 15
Statistical methods	12	(a) Describe all statistical methods, including those used to control for confounding	Page 11-12 / Line 227-235	Material and Methods / Paragraph 15
		(b) Describe any methods used to examine subgroups and interactions	Page 11-12 / Line 227-235	Material and Methods / Paragraph 15
		(c) Explain how missing data were addressed	N/A	N/A
		(d) <i>Cohort study</i> —If applicable, explain how loss to follow-up was addressed <i>Case-control study</i> —If applicable, explain how matching of cases and controls was addressed <i>Cross-sectional study</i> —If applicable, describe analytical methods taking account of sampling strategy	N/A	N/A
		(e) Describe any sensitivity analyses	N/A	N/A
Results				

Participants	13*	(a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed	Page 6-7 / Line 113-123	Material and Methods / Paragraph 2
		(b) Give reasons for non-participation at each stage	Page 6-7 / Line 113-114	Material and Methods / Paragraph 2
		(c) Consider use of a flow diagram	Supplementary Material	Supplemental figure 1
Descriptive data	14*	(a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders	Page 12 / Line 237-244	Results / Paragraph 1
		(b) Indicate number of participants with missing data for each variable of interest	Page 7 / Line 117-127	Material and Methods / Paragraph 2
		(c) <i>Cohort study</i> —Summarise follow-up time (eg, average and total amount)	N/A	N/A
Outcome data	15*	(a) <i>Cohort study</i> —Report numbers of outcome events or summary measures over time	N/A	N/A
		(b) <i>Case-control study</i> —Report numbers in each exposure category, or summary measures of exposure	N/A	N/A
		(c) <i>Cross-sectional study</i> —Report numbers of outcome events or summary measures	Page 12 / Line 238-245	Results / Paragraph 1
Main results	16	(a) Give unadjusted estimates and, if applicable, confounder-adjusted estimates and their precision (eg, 95% confidence interval). Make clear which confounders were adjusted for and why they were included	N/A	N/A
		(b) Report category boundaries when continuous variables were categorized	Page 11 / Line 223-226	Material and Methods / Paragraph 14
		(c) If relevant, consider translating estimates of relative risk into absolute risk for a meaningful time period	N/A	N/A
Other analyses	17	Report other analyses done—eg analyses of subgroups and interactions, and sensitivity analyses	Page 12-13/ Line 245-272	Results / Paragraph 2-5
Discussion				

Key results	18	Summarise key results with reference to study objectives	Page 13 / Line 274-278	Discussion / Paragraph 1
Limitations	19	Discuss limitations of the study, taking into account sources of potential bias or imprecision. Discuss both direction and magnitude of any potential bias	Page 16-18 / Line 346-386	Discussion / Paragraph 10-13
Interpretation	20	Give a cautious overall interpretation of results considering objectives, limitations, multiplicity of analyses, results from similar studies, and other relevant evidence	Page 13-16/ Line 274-335	Discussion / Paragraph 1-8
Generalisability	21	Discuss the generalisability (external validity) of the study results	Page 17 / Line 362-368	Discussion / Paragraph 11
Other information				
Funding	22	Give the source of funding and the role of the funders for the present study and, if applicable, for the original study on which the present article is based	Page 19 / Line 400-404	Acknowledgments / Paragraph 2

*Give information separately for cases and controls in case-control studies and, if applicable, for exposed and unexposed groups in cohort and cross-sectional studies.

Note: An Explanation and Elaboration article discusses each checklist item and gives methodological background and published examples of transparent reporting. The STROBE checklist is best used in conjunction with this article (freely available on the Web sites of PLoS Medicine at <http://www.plosmedicine.org/>, Annals of Internal Medicine at <http://www.annals.org/>, and Epidemiology at <http://www.epidem.com/>). Information on the STROBE Initiative is available at www.strobe-statement.org.

N/A Statements:

- 6b) The present investigation was performed as prospective cross-sectional study (no cohort or case-control study).
- 12c) No missing data points in the evaluated cohort.
- 12d) Sampling was performed by invitation and no statistical methods taking sampling strategy into account were applied.
- 12e) No sensitivity analysis was conducted.
- 14c) The present investigation was performed as cross-sectional study (no cohort study) and no follow-up was performed.
- 15a) The present investigation was performed as cross-sectional study (no cohort study).
- 15b) The present investigation was performed as cross-sectional study (no case-control study)
- 16a) No estimates were conducted.
- 16c) No risk analysis was conducted.
