

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tp-23-196">https://dx.doi.org/10.21037/tp-23-196</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The primary data of RNA sequencing (RNA-seq) (lncRNA and mRNA) data in particular will be shared, which also has been provided in GEO.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or RNA-seq data may be updated over time.
7	To whom will you share the data?	Relevant peers of interest in this study will be share my data.
8	For what type of analysis or purpose?	For analysis to further study about Children with lesional epilepsy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhaixuan@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
