

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tp-23-441">https://dx.doi.org/10.21037/tp-23-441</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Platelet parameters in children with severe CAP will be shared, especially in diagnostic performance in platelet parameters in differentiating bacterial and viral infections.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	When we continue to expand the sample size and the conclusions are inconsistent
7	To whom will you share the data?	Doctors in the Department of Intensive Care
8	For what type of analysis or purpose?	To assess the diagnostic performance in platelet parameters in differentiating bacterial and viral infections.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: fanchaonan-2005@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
