

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tp-23-596	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We would like to share the full code used in bioinformatics analysis and the original data of our animal model studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes, we would like to share our animal model protocol.
5	When will data availability begin?	The data will be available when our work was published online.
6	When will data availability end?	-
7	To whom will you share the data?	The data can be shared to any researchers that send a request to us.
8	For what type of analysis or purpose?	Other researchers may use our shared data in their own studies with appropriate citations.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ntyysl@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
