

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tp-23-590	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data on the general clinical characteristics of the children, as well as data on treatment modalities and survival outcomes, can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Pediatric oncologists and surgeons are interested in the study of EIMS.
8	For what type of analysis or purpose?	To analyze the clinical characteristics of EIMS, and to provide new insights for the treatment of EIMS patients or improve their prognosis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wanghuanmin@bch.com.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
