

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tp-24-246">https://dx.doi.org/10.21037/tp-24-246</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes, I'd like to.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The complications of OIC in particular will be shared, since we found those were mentioned in the previous literature seldom.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Five years within the publication date, because the surgical method may be updated.
7	To whom will you share the data?	Surgeons who are interested in OIC surgery.
8	For what type of analysis or purpose?	To evaluate the surgical indications and complications of OIC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ruoshuifly@126.com
10	Any other restrictions?	We will consider the potential benefits and risks for each request and then provide the data that could be shared
