

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tp-20-162	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The duration of operations in the open surgery and laparoscopic surgery groups will be shared in particular, as well as the detailed procedures of laparoscopic surgery, blood loss, length of hospital stay, drainage level, and the mean visual analog scale in both groups.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Urological surgeons and pediatric physicians who are interested in studies of duplex kidneys.
8	For what type of analysis or purpose?	For the comparison of the Lich-Gregoir vesico-ureteral reimplantation for functional duplex kidneys in laparoscopy and open surgery.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: chinachangzhou@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
