

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tp-20-198.	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	The associations between VDR single nucleotide polymorphisms (SNPs) and markers of inflammation and oxidative stress in vitamin D sufficient children.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and analytical data will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the techniques may be updated over time.
7	To whom will you share the data?	Pediatricians and researchers interested in the effects of vitamin D.
8	For what type of analysis or purpose?	For analysis between vitamin D, genetic variants and epigenetic changes.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: pilar.codoner@uv.es.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
