

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tp-21-513	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data generated for this study can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan can be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the data may be updated over time.
7	To whom will you share the data?	Researchers who are interested in studies of real-time shear wave elastography evaluation of the correlation between brain tissue stiffness and BMI in premature neonates.
8	For what type of analysis or purpose?	For analysis to explore real-time shear wave elastography evaluation of the correlation between brain tissue stiffness and BMI in premature neonates.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Minghui Tong: tongmh1962@126.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
