

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tp-22-226">https://dx.doi.org/10.21037/tp-22-226</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The accuracy data of open-field autorefractors with and without cycloplegia in Chinese school-aged children will be shared in particular the comparison with conventional autorefractor and subjective refraction.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and informed consent form will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Optometrist or ophthalmologist who are interested in studies for open-field autorefractors.
8	For what type of analysis or purpose?	For analysis to evaluate the accuracy data of open-field autorefractors.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: swaying_leaf@njucm.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
