

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-22-903	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Analysis of relevant data on the causes of catheterization failure, as well as relevant operation methods and processes during catheterization.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent forms and clinical study reports will also be shared if required.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Gastrointestinal surgeons interested in DSA guided nasoenteric feeding tube placement and physicians in interventional therapy departments.
8	For what type of analysis or purpose?	Side effects of DSA guided catheterization and more better catheterization strategies.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yangdq@hebmu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
