

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-22-984	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The bacteria detection rate, days of hospital stay, and days of antibiotic therapy, in particular will be shared, and we also found nebulized colistin sulfate as an adjuvant supportive treatment for intravenous antibiotics may can improve clinical efficacy and has high safety.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Physicians who have insights into aerosolized antibiotics in the Department of Critical Care Medicine, Respiratory Medicine, and Infectious Diseases.
8	For what type of analysis or purpose?	For analysis to evaluate the clinical efficacy and safety of adjunctive nebulized colistin sulfate in MDR-GNB pneumonia.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: tangzhixuan@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
