

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/apm-22-1026">https://dx.doi.org/10.21037/apm-22-1026</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The visual analogue scale (VAS) scores of uterine contraction pain and the VAS score at different time after postoperative, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, consent form and clinical study report will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or pain intensity data may be updated over time.
7	To whom will you share the data?	Anesthesiologists who are interested in maternal analgesia management.
8	For what type of analysis or purpose?	It is used to evaluate the analgesic effect of patients after operation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:1393812920@qq.com">1393812920@qq.com</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
