

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-22-207	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The pain sensation threshold and fentanyl sensitivity data in particular will be shared, and we also found these were not associated with subjective postoperative pain score, quality of life score, or development of post-thoracotomy pain syndrome.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the data may be updated over time.
7	To whom will you share the data?	Surgeons who are interested in studies of postoperative pain.
8	For what type of analysis or purpose?	For analysis to evaluate the postoperative pain in lung cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hidemisuzukidesu@yahoo.co.jp
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
