Consolidated criteria for reporting qualitative studies (COREQ): 32-item checklist

No	Item	Guide questions/description	Reported on Page Number/Line Number	Reported on Section/Paragraph						
Domai	Domain 1: Research team and reflexivity									
Personal Characteristics										
1	Interviewer/facilitator	Which author/s conducted the interview or focus group?								
2	Credentials	What were the researcher's credentials? e.g. PhD, MD								
3	Occupation	What was their occupation at the time of the study?								
4	Gender	Was the researcher male or female?								
5	Experience and training	What experience or training did the researcher have?								
Relationship with participants										
6	Relationship established	Was a relationship established prior to study commencement?								
7	Participant knowledge of the interviewer	What did the participants know about the researcher? e.g. personal goals, reasons for doing the research								
8	Interviewer characteristics	What characteristics were reported about the interviewer/facilitator? e.g. Bias, assumptions, reasons and interests in the research topic								
Domain 2: study design										
Theore	tical framework									
9	Methodological orientation and Theory	What methodological orientation was stated to underpin the study? e.g. grounded theory, discourse analysis, ethnography, phenomenology, content analysis discourse analysis, ethnography, phenomenology, content analysis								
Participant selection										
10	Sampling	How were participants selected? e.g. purposive, convenience, consecutive, snowball								
11	Method of approach	How were participants approached? e.g. face-to-face, telephone, mail, email								
12	Sample size	How many participants were in the study?								
13	Non-participation	How many people refused to participate or dropped out? Reasons?								

Setting of data collection Where was the data collected? e.g. home, clinic, workplace									
15 Presence of non-participants Was anyone else present besides the participants and researchers? 16 Description of sample What are the important characteristics of the sample? e.g. demographic data, date Data collection 17 Interview guide Were questions, prompts, guides provided by the authors? Was it pilot tested? 18 Repeat interviews Were repeat interviews carried out? If yes, how many? 19 Audio/visual recording Did the research use audio or visual recording to collect the data? 20 Field notes Were field notes made during and/or after the interview or focus group? 21 Duration What was the duration of the interviews or focus group? 22 Data saturation Was data saturation discussed? 23 Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? 19 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? 29 Quotations presented Were participant quotations presented on illustrate the themes/findings? 30 Data and findings consistent Was there consistency between the data presented and the findings?	Setting	Setting							
Data collection To Interview guide Were questions, prompts, guides provided by the authors? Was it pilot tested? Interview guide Were questions, prompts, guides provided by the authors? Was it pilot tested? Interview guide Were questions, prompts, guides provided by the authors? Was it pilot tested? Interview guide Were repeat interviews carried out? If yes, how many? Interview guide Were repeat interviews carried out? If yes, how many? Interview guide Were field notes were repeat interviews carried out? If yes, how many? Interview guide Were field notes made during and/or after the interview or focus group? Interview group?	14	Setting of data collection	Where was the data collected? e.g. home, clinic, workplace						
Data collection 17	15	Presence of non-participants	Was anyone else present besides the participants and researchers?						
Interview guide Were questions, prompts, guides provided by the authors? Was it pilot tested? Repeat interviews Were repeat interviews carried out? If yes, how many? Judio/visual recording Did the research use audio or visual recording to collect the data? Were field notes Were field notes made during and/or after the interview or focus group? Interview or focus group? Duration What was the duration of the interviews or focus group? Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis Number of data coders How many data coders coded the data? Description of the coding Did authors provide a description of the coding tree? Software What software, if applicable, was used to manage the data? Perporting Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number Were major themes Were major themes the findings? Was there consistency between the data presented and the findings? Judy and findings consistent Was there consistency between the data presented and the findings? Were major themes Were major themes clearly presented in the findings?	16	Description of sample	What are the important characteristics of the sample? e.g. demographic data, date						
Repeat interviews Were repeat interviews carried out? If yes, how many? 19 Audio/visual recording Did the research use audio or visual recording to collect the data? 20 Field notes Were field notes made during and/or after the interview or focus group? 21 Duration What was the duration of the interviews or focus group? 22 Data saturation Was data saturation discussed? 23 Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding Iree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	Data co	Data collection							
19	17	Interview guide	Were questions, prompts, guides provided by the authors? Was it pilot tested?						
Per Field notes Were field notes made during and/or after the interview or focus group? 21 Duration What was the duration of the interviews or focus group? 22 Data saturation Was data saturation discussed? 23 Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	18	Repeat interviews	Were repeat interviews carried out? If yes, how many?						
21 Duration What was the duration of the interviews or focus group? 22 Data saturation Was data saturation discussed? 23 Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	19	Audio/visual recording	Did the research use audio or visual recording to collect the data?						
22 Data saturation Was data saturation discussed? 23 Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree Did authors provide a description of the coding tree? 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	20	Field notes	Were field notes made during and/or after the interview or focus group?						
Transcripts returned Were transcripts returned to participants for comment and/or correction? Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree Did authors provide a description of the coding tree? 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	21	Duration	What was the duration of the interviews or focus group?						
Domain 3: analysis and findingsz Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	22	Data saturation	Was data saturation discussed?						
Data analysis 24 Number of data coders How many data coders coded the data? 25 Description of the coding tree 26 Derivation of themes Were themes identified in advance or derived from the data? 27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	23	Transcripts returned	Were transcripts returned to participants for comment and/or correction?						
Number of data coders How many data coders coded the data? Description of the coding tree Did authors provide a description of the coding tree? Description of the coding tree Did authors provide a description of the coding tree? Did authors provide a description of the coding tree? Did authors provide a description of the coding tree? Software Were themes identified in advance or derived from the data? Participant checking Did participants provide feedback on the findings? Reporting Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number Data and findings consistent Was there consistency between the data presented and the findings? Clarity of major themes Were major themes clearly presented in the findings?	Domain 3: analysis and findingsz								
Description of the coding tree Did authors provide a description of the coding tree? Derivation of themes Were themes identified in advance or derived from the data? Software What software, if applicable, was used to manage the data? Participant checking Did participants provide feedback on the findings? Reporting Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number Did authors provide a description of the coding tree? What software, if applicable, was used to manage the data? Participant checking Did participants provide feedback on the findings? Participant checking Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? e.g. participant number Clarity of major themes Were major themes clearly presented in the findings?	Data analysis								
tree description of themes description of themes described in advance or derived from the data? 27 Software description what software, if applicable, was used to manage the data? 28 Participant checking description display description descripti	24	Number of data coders	How many data coders coded the data?						
27 Software What software, if applicable, was used to manage the data? 28 Participant checking Did participants provide feedback on the findings? Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? 20 Data and findings consistent Was there consistency between the data presented and the findings? 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	25		Did authors provide a description of the coding tree?						
Participant checking Did participants provide feedback on the findings? Reporting Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? Data and findings consistent Was there consistency between the data presented and the findings? Ularity of major themes Were major themes clearly presented in the findings?	26	Derivation of themes	Were themes identified in advance or derived from the data?						
Reporting 29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	27	Software	What software, if applicable, was used to manage the data?						
29 Quotations presented Were participant quotations presented to illustrate the themes/findings? Was each quotation identified? 30 Data and findings consistent Was there consistency between the data presented and the findings? 31 Clarity of major themes Were major themes clearly presented in the findings?	28	Participant checking	Did participants provide feedback on the findings?						
e.g. participant number Data and findings consistent Was there consistency between the data presented and the findings? Ularity of major themes Were major themes clearly presented in the findings?	Report	Reporting							
31 Clarity of major themes Were major themes clearly presented in the findings?	29	Quotations presented							
	30	Data and findings consistent	Was there consistency between the data presented and the findings?						
32 Clarity of minor themes Is there a description of diverse cases or discussion of minor themes?	31	Clarity of major themes	Were major themes clearly presented in the findings?						
	32	Clarity of minor themes	Is there a description of diverse cases or discussion of minor themes?
