

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/apm-20-346	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The MoCA scale data in particular will be shared, and we also found the intervention group scored higher than the control group on the change score of the total score in the MoCA after seven 1-hour sessions of multidimensional interventions, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique date may be updated over time.
7	To whom will you share the data?	Medical professionals who are interested in studies of cognitive rehabilitation.
8	For what type of analysis or purpose?	For analysis to evaluate the short-term effect of multidimensional intervention based on the ICF in MCI patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: (xsf0625@126.com)
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
