

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-20-1455">http://dx.doi.org/10.21037/apm-20-1455</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	De-identified subscore data will be shared from all treatment groups and visit dates
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Not applicable. A blank example of the Edmonton Symptom Assessment System (ESAS) score sheet can be provided.
5	When will data availability begin?	Upon publication
6	When will data availability end?	Data will be available for at least one year after publication
7	To whom will you share the data?	Clinicians and researchers interested in cancer pain management
8	For what type of analysis or purpose?	For research related to cancer pain management and the use of combination therapy
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:curryza@vcu.edu">curryza@vcu.edu</a>
10	Any other restrictions?	We may need to balance the risk versus benefit for each request before providing the data that could be shared. No personally identifiable data related to study participants can be shared.
