

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/apm-20-2267	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The clinic data and results of the body composition, serum melatonin levels and blood glucose and insulin levels of females with circadian rhythm disorder.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Doctors and researchers who are interested in studies of circadian rhythm disorder.
8	For what type of analysis or purpose?	For analysis of the effects of circadian disruption on body composition and insulin resistance in women aged 31–40 years.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wangkai-liaoda@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
