

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-20-1550">http://dx.doi.org/10.21037/apm-20-1550</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The classification of surgical methods and the measurement of functional outcome parameters for each patient were shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol and statistical analysis plan were shared and analyzed.
5	When will data availability begin?	From the publication date
6	When will data availability end?	It is available until a report of the results of a study with a larger patient pool.
7	To whom will you share the data?	plastic surgeon, breast surgeon, rehabilitation department of breast surgery team
8	For what type of analysis or purpose?	To evaluate the function outcome according to the two surgical techniques in implant-based breast reconstructions.
9	How or where can the data/documents be obtained?	If the reader emails First authors or corresponding authors (Joon Seok Lee / leejspo@knu.ac.kr; Jung Dug Yang / lambyang@knu.ac.kr), we will do our best to help you with your needs. If patient information data is not exposed, we can provide sufficient assistance.
10	Any other restrictions?	Small patient pool
