

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/apm-21-693	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Indirect immunofluorescent assay (IFA) and western Blot (WB) results will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Researchers interested in serological testing for Lyme disease.
8	For what type of analysis or purpose?	To study the incidence of Lyme disease.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wens89@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
