

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-21-439">http://dx.doi.org/10.21037/apm-21-439</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	General patient information, comparison of the incidence of hypoglycemia between the two groups, comparison of the qualified rate of weight gain at the end of pregnancy between the two groups, comparison of the compliance with blood glucose monitoring between the two groups, comparison of the health behavior patterns between the two groups before and after intervention will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or date may be updated over time.
7	To whom will you share the data?	Obstetrics and gynecology medical staff who are interested in the study of the effects of the instantaneous scanning glucose monitoring system on hypoglycemia, weight gain, and health behaviors in patients with gestational diabetes.
8	For what type of analysis or purpose?	Analysis of effects of the instantaneous scanning glucose monitoring system on gestational diabetes.

9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wangxu_0603@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
