

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-21-766">http://dx.doi.org/10.21037/apm-21-766</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data on patient demographic, pain, morphine consumption, peak flow rate and side effects will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report can also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Anesthesiologists, surgeons and pain physicians who are interested in the studies using ketamine and/or postoperative pain control after thoracic surgery.
8	For what type of analysis or purpose?	For systematic review or meta-analysis on perioperative use of ketamine or postoperative pain control after thoracic surgery.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: nophanan.chi@mahidol.edu
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
