

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/apm-21-1840">https://dx.doi.org/10.21037/apm-21-1840</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All original data files that can calculate the results of this paper can be shared. However, all the characteristic information that may be traced to the patient will be hidden and replaced with an untraceable anonymous number.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the further research may be updated over time.
7	To whom will you share the data?	Researchers and medical workers interested in Ballistocardiography (BCG) research.
8	For what type of analysis or purpose?	To evaluate the effectiveness of BCG in identifying high left atrial pressure in patients with heart failure
9	How or where can the data/documents be obtained?	Emails could be sent to the addresses below to obtain the shared data: 39165223@qq.com wangbin_pku@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
