

Data Sharing Statement

| | | |
|---------------------|---|--|
| Article Info | https://dx.doi.org/10.21037/apm-21-2433 | |
| Item | Question | Authors' Response (place "-" if not applicable) |
| 1 | Would you like to share data collected for your study to others? | Yes. |
| 2 | If not, would you like to share the reason for your decision? | - |
| 3 | What data in particular will be shared? | The results of which BRD7 was highly expressed in hypoxia-treated H9C2 cells and MI rat model, and downregulation of BRD7 alleviated MI-induced myocardial injury in vitro and in vivo will be shared. |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | None. |
| 5 | When will data availability begin? | From the publication date. |
| 6 | When will data availability end? | Two years within the publication date, since the technique may be updated over time. |
| 7 | To whom will you share the data? | Scholars interested in myocardial infarction. |
| 8 | For what type of analysis or purpose? | To confirm the effects of BRD7 on myocardial infarction in animal and cell models, and to explore its mechanism. |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the address below to obtain the shared data: mmc168@126.com; qdwxm310@163.com |
| 10 | Any other restrictions? | We may balance the potential benefits and risks for each request and then provide the data that could be shared. |
