

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/apm-21-1510	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The results of Platelet-rich plasma combined with ozone prevents cartilage destruction and improves weight-bearing asymmetry in a surgery-induced osteoarthritis rabbit model
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and ethical approval will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Orthopedist and Pain doctor who are interested in studies of O <sub>3</sub> and PRP.
8	For what type of analysis or purpose?	This study aimed to evaluate the effectiveness and explore the therapeutic mechanisms of the combination of platelet-rich plasma (PRP) and ozone (O <sub>3</sub> ) for knee OA
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: dongyazhang@sina.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
