Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	No
2	If not, would you like to share the reason for your decision?	The consumption data of carbapenems were obtained from the hospital information system (HIS). The data of bacterial identification and antibacterial susceptibility testing were provided by the laboratory information management system (LIS). All the raw data could be viewed, but not downloaded. Moreover, the antibiotics use density and the rate of carbapenem-resistant gram-negative bacteria (CRGN) is automatically calculated by the information system.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	-
