

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-21-2005	
Item	Question	Authors' Response (place “-” if not applicable)
1	Would you like to share data collected for your study to others?	Y
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Rheumatic heart disease still exists in northern China and requires adequate resources for its management. The number of older patients with rheumatic mitral valve disease presents a challenge for mitral valve surgery.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the surgery date may be updated over time.
7	To whom will you share the data?	Epidemiologist and cardiac surgeons who are interested in studies of ARF/RHD.
8	For what type of analysis or purpose?	For analysis to the incidence of ARF/RHD, early diagnosis and treatment for ARF/RHD.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jiangangwang@ccmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
